Manoir Hovey is remaining open during the renovations

Manoir Hovey, the five-star Relais & Chateaux inn located in North Hatley has adapted quickly in the aftermath of the fire there on February 8, with the invaluable help of the company, Phoenix and a magnificent staff who really rose to the occasion.

Only 2 days after the limited fire, the inn was back open on a B&B basis with attractive rates. Our guests are appreciating the cozy atmosphere in the Abenaki Room which we have converted to a breakfast room (serving full breakfasts) during the renovation period. All guests bedrooms are completely unaffected in the Coach House and the outlying buildings. We are also continuing to serve our prolonged gourmet breakfasts on Sundays which are served until 2 P.M. at \$25.

The Manor's main dining room is being beautifully renovated and will reopen for lunches and dinners on April 2 along with the affected rooms above the dining room. All is very positive.
